

COUNTY AND STATE

Neighborhood News of the Past, Present and Near Future

An old-fashioned celebration will be held in the public park at Hale on Saturday, July 4.

William Lear was drown in Ground river near Chillicothe last Saturday while in bathing with a number of other boys.

Big extensions are being made to the street lighting system at Marceline. Thirteen new lamps are being added in one ward.

Fad government received a black eye at Chillicothe last Monday at a special election held to vote on commission form of government. The measure was defeated by 107 votes, 457 being cast against the measure and 350 for it.

Thos. Adair of Marceline has been appointed county deputy for the Odd Fellows of this county. There are twelve lodges in this county with a combined membership of close to 1,200. This is one of the strongest counties in the state in point of membership.

J. H. McKinney, republican candidate for prosecuting attorney, is in demand as a public speaker. He has accepted an invitation to address the Union Christian Men's Brotherhood at Marceline next Sunday and will be one of the orators at Marceline's celebration on the fourth.

A determined campaign against the "box car" type of country school houses, which prevail throughout rural Missouri, has been launched by Wm. P. Evans, state superintendent of public schools. He advocates the construction of future buildings along modern lines, the cost being but little, if any, higher than the "box car" type.

Miss Cora Frakes, principal of the Adams school in Brookfield and a former teacher in Laclede schools, sustained a fractured wrist in an automobile accident in St. Louis last week. She was in St. Louis visiting her sister, Mrs. Oren Hurlbut, who was also in the car when it turned over but escaped injury.

Hon. Fred S. Hodson of Chillicothe, well known in this county, has filed for the republican nomination for state senator in his district. Mr. Hudson served one term in the state senate and did it so ably and satisfactory that he will no doubt be returned. The district is largely republican and the nomination is equivalent to election.

The last of the costs in the Missouri rate litigation with the railroads was received by Attorney General Barker Saturday and turned over to the state treasurer. The aggregate is \$28,220. Of this sum the Burlington contributed \$20,365.65. This represents the costs incurred in the litigation instituted in the federal court at Kansas City by the railroads in 1905 in their opposition to the rate laws. Twelve railroads were interested in the suits.

What is said to have been the largest number of cars yet handled in one train went over the Missouri division Monday, says the Marceline Herald, when a "drag" containing 107 cars passed through Marceline, with only one locomotive for the motive power. The train was run in connection with the tests which are being made to ascertain the amount of tonnage which can be put into one train, and to ascertain also where the grades are the worst, with a view of improving them.

Mrs. Kate Gray Passes Away

Mrs. Kate S. Gray died June 23 at the home of her brother, Rev. Wm. Sissons of Laclede, after a brief illness. The funeral services were held Thursday afternoon at the Methodist church, conducted by Rev. Mendenhall, assisted by Rev. W. C. Atwood, interment was in Rose Hill cemetery at Brookfield. The funeral services were in charge of M. Y. Rusk.

Kate Sissons was born in Ontario, Canada, Sept. 17, 1854, and when fourteen years of age came with her brother and sister to Brookfield. At twenty-two she went to Massachusetts where she lived for a number of years, but returned to Missouri to care for her niece, Miss Grace M. Sissons, when her mother died. While in Missouri she was married to Luther Gray. Mr. and Mrs. Gray moved to Vermont where they lived for a number of years. After Mr. Gray's death Mrs. Gray returned to Massachusetts where she resided until two years ago when she came to Laclede to make her home with her brother, Rev. Wm. Sissons, and her niece, Miss Grace Sissons.

Mrs. Gray was an active member of the Methodist church and was the finest type of christian womanhood, cheerful, optimistic, helpful, full of practical good deeds. Mrs. Gray was always lovable and generous and her good deeds were as numerous as the days of her life. She helped more than one struggling young boy or girl through school, she assisted those in distress and was forever doing lovely things for her friends, and even strangers who came her way.

Because of this generous spirit and her happy temperament, she lived joyfully, and found the world good. She never lost her faith in God or her fellow beings. Her character grew more beautiful to the very last.

She is survived by one brother, Rev. Wm. Sissons, a sister, Mrs. Susan Hubbard of Brookfield, and Miss Grace M. Sissons. Numberless friends wherever she had lived will remember her always as they will a fragrant flower and the generous sunshine, for she was a rare combination of beautiful spirit and practical helpfulness.

Christian Church Notes

Bro. Dunkleberger will fill his regular appointment Sunday, preaching at the church at 11 a. m. and 7:45 p. m. Sunday school 10 a. m. Prayer meeting Wednesday evening at 7:15. Willing Workers meeting every Thursday. All friends cordially invited to these services.

We have asked you to base your judgment and comparisons of value on cold facts and figures. We ask you to compare this car with any you have in mind from the standpoint of appearance, of comfort-giving roominess, of ease and safety of handling, of power, hill-climbing ability—of downright money's worth. That is all we ask.

Short Jaunts for Little Money in Glacier National Park

I want to send you a folder about this wonderful region. I want every family in the country to realize that it is possible, without great expense, to go to the American Alps and spend a few delightful weeks there, trout fishing and taking little trips on foot or in automobiles or on horseback or by boat, which cost only from \$1 to \$5 per day.

When people fully understand what this country offers them in Glacier National Park of Montana, many more hotels and picturesque chalets will have to be built there to accomodate visitors. I tell you the combination of high mountains, great chasms, mysterious glaciers, those moving rivers of solid ice, and with all, the health giving climate, the wonderful invigorating air, is a gracious gift that is being offered by nature to all those who will take the trouble to inquire and find out if the trip to Glacier National Park is a possible thing for them.

Let me give you complete information and give you a copy of the Glacier Park folder, a map of the park and some other interesting illustrated booklets, and tell you about the luxurious "Oriental Limited" and "Great Northern Express"—the only trains that run through to Glacier National Park.

Don't wear yourself out on ironing day by chasing back and forth between the ironing board and a hot stove but get an electric iron from Caywood & Baum and be comfortable while doing the work.

Mrs. Elizabeth Reid does hair work of the highest quality. Switches made from your own hair. All hand work.

The grocer likes me,
The baker, too,
Good cooks use me
And so ought you.

It's No Secret

Housewives are all learning the truth. They make sure of having "good luck" with their baking by using

ZEPHYR FLOUR

The baking qualities of Zephyr Flour are tested in the mills by actually baking from samples every two hours while the flour is being ground. Also analyzed by chemists every two hours. The mills see to it that Zephyr Flour is made uniform. The mill people know it always acts the same way in baking, and housewives and bakers quickly find it out.
